1. Nature of operations and going concern

Deveron UAS Corp. (formerly Deveron Resources Ltd.) ("Deveron" or the "Company") was incorporated under the laws of the Province of Ontario on March 28, 2011. On November 27, 2012, Deveron's common shares started trading on the TSX Venture Exchange ("TSXV") under the symbol "DVR". The primary office is located at The Canadian Venture Building, 82 Richmond Street East, Toronto, Ontario, M5C 1P1.

As at March 31, 2017, 42.14% of the Company's issued and outstanding shares are owned by Greencastle Resources Ltd. ("Greencastle"). This gives Greencastle the control over the Company. As such, Deveron is a subsidiary of Greencastle. Further details of Greencastle's share holding interest is disclosed in note 13.

On March 24, 2016, Deveron obtained its Special Flight Operations Certificate ("SFOC") from Transport Canada. The SFOC permits Deveron to operate small unmanned aerial systems ("UAS", "UAV" or, more commonly, "drones") for the purpose of surveying agricultural land in rural areas of Ontario. Deveron is operating under a standing SFOC which allows Deveron to operate on an annual basis rather than a per flight basis. To use a UAV for work or research in Canada, companies are legally required to hold an SFOC.

On April 13, 2016, Deveron commenced commercial UAS flying for the 2016 agricultural season in Ontario. Deveron also hired additional licensed pilots to operate its fleet of drones.

On July 14, 2016, the Company changed its name from Deveron Resources Ltd. to Deveron UAS Corp., completed the acquisition of 2487473 Ontario Inc. (operating as Eagle Scout Imaging) ("Eagle Scout") (refer to note 3) and the Company's common shares were delisted from the TSXV. On July 19, 2016, the Company's common shares were accepted for listing on the Canadian Securities Exchange ("CSE"), and its common shares commenced trading on the CSE under its existing symbol "DVR".

On July 26, 2016, the Company received authority to operate under a SFOC, for its UAS in Alberta, Saskatchewan and Manitoba as a Restricted Operator - Complex Operations. The SFOC has been issued under the authority of Transport Canada pursuant to the Aeronautics Act. Under its SFOC, Deveron received approvals to expand into Western Canada with up to four different pieces of hardware.

A Standing SFOC is issued to allow operations within a defined geographical boundary (e.g. province) and removes the requirement to submit individual sites for prior approval, subject to certain conditions. A Standing SFOC is not issued until the UAV operator has gained sufficient experience and demonstrates a history of safe operations.

On March 7, 2017, the Company announced a multi-year commitment to working with Thompson Ltd. to provide leading-edge remote sensing data solutions to its growers. The contract is expected to run through 2018.

These unaudited condensed interim consolidated financial statements have been prepared on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. Certain principal conditions and events are prevalent which indicate that there could be significant doubt about the Company's ability to continue as a going concern for a reasonable period of time. These include: (i) recurring operating losses and (ii) inability to obtain additional financing. The ability of the Company to fund its potential operations and commitments is dependent upon the ability of the Company to obtain additional financing.

2. Significant accounting policies

(a) Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS issued and outstanding as of May 16, 2017, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2016. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2017 could result in restatement of these unaudited condensed interim consolidated financial statements.

(b) Recent accounting pronouncements

(i) IFRS 9 - Financial Instruments ("IFRS 9") was issued by the IASB in November 2009 and will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 replaces the multiple rules in IAS 39 with a single approach to determine whether a financial asset is measured at amortized cost or fair value and a new mixed measurement model for debt instruments having only two categories: amortized cost and fair value. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. This standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39.

In October 2010, the IASB added requirements for financial liabilities to IFRS 9. These requirements were largely carried forward from the existing requirements in IAS 39, however, fair value changes due to credit risk for liabilities designated at fair value through profit and loss are generally recorded in other comprehensive income.

In November 2013, the IASB amended IFRS 9 to include a new general hedge accounting model.

In July 2014, the IASB issued the final version IFRS 9 that supersedes the requirements of earlier versions of the standard. The new standard will replace both IAS 39 and IFRIC 9 - Reassessment of Embedded Derivatives. The standard will retain the classification and measurements requirements and new hedge accounting model introduced by the previous versions while introducing a single forward-looking expected credit loss impairment model. The final version of this new standard is effective for annual periods beginning on or after January 1, 2018. The Company is still in the process of assessing the impact of this pronouncement.

(ii) In May 2014, the IASB issued IFRS 15 - Revenue from Contracts with Customers ("IFRS 15") to replace IAS 18 - Revenue and IAS 11 - Construction Contracts and the related interpretations on revenue recognition. The new revenue standard introduces a single, principles based, five-step model for the recognition of revenue when control of a good or service is transferred to the customer. The five steps are identify the contract(s) with the customer, identify the performance obligations in the contract, determine transaction price, allocate the transaction price and recognize revenue when the performance obligation is satisfied. IFRS 15 also requires enhanced disclosures about revenue to help investors better understand the nature, amount, timing and uncertainty of revenue and cash flows from contracts with customers and improves the comparability of revenue from contracts with customers. IFRS 15 will be effective for annual periods beginning on or after January 1, 2018, with early adoption permitted.

2. Significant accounting policies (continued)

(b) Recent accounting pronouncements (continued)

(iii) IFRS 16 - Leases ("IFRS 16") was issued on January 13, 2016 to require lessees to recognize assets and liabilities for most leases. For lessors, there is little change to the existing accounting in IAS 17 - Leases.

The IASB issued its standard as part of a joint project with the Financial Accounting Standards Board ("FASB"). The FASB has not yet issued its new standard, but it is also expected to require lessees to recognize most leases on their statement of financial position.

The new standard will be effective for annual periods beginning on or after January 1, 2019. Early application is permitted, provided the new revenue standard, IFRS 15, has been applied, or is applied at the same date as IFRS 16.

3. Acquisition of Eagle Scout

On February 19, 2016, Deveron entered into a definitive arm's length share exchange agreement (the "SEA") to acquire all of the issued and outstanding shares of Eagle Scout, a private company existing under the laws of the Province of Ontario. Eagle Scout uses the advanced UAV along with hardware, camera, sensor and software technologies to collect crop data and provide solutions to farmers.

On July 14, 2016, the Company acquired all of the issued and outstanding shares of Eagle Scout pursuant to the term of the SEA (the "Acquisition"). As a result, Eagle Scout is a wholly-owned subsidiary of the Company and Deveron owns 100% of the Eagle Scout shares and its assets. In connection with completion of the Acquisition, Eagle Scout shareholders received (a) 1,700,001 common shares of Deveron valued at \$0.24 per common share; and (ii) 850,000 common share purchase warrants of the Company (the "Payment Warrants"). Each Payment Warrant entitles the holder thereof to acquire one common share at a price of \$0.40 for a period of two years from the date of issuance. As additional consideration, Deveron may issue one (1) common share (each, an "Additional Payment Share") for each \$1.00 of gross revenue earned during each of the four fiscal years ending after the date hereof (each, an "Earn-out Period"), to a maximum of 1,000,000 common shares in the aggregate. The Additional Payment Shares will be issued in up to four installments on each date that is no later than five (5) business days following the date on which Deveron files its audited annual consolidated financial statements for the applicable Earn-out Period.

The allocation of the purchase price is as follows:

Purchase price allocation

Issuance of common shares (i)	\$ 408,000
Issuance of Payment Warrants (ii)	85,239
Additional Payment Shares (iii)	240,000

3. Acquisition of Eagle Scout (continued)

(i) For the purpose of determining the value of the purchase price consideration, the 1,700,001 common shares were valued at \$0.24 per share based on Deveron's closing price as of July 14, 2016.

(ii) The fair value of Deveron's 850,000 Payment Warrants was estimated to be \$85,239 using the Black-Scholes option pricing model. The following weighted average assumptions were used: share price - \$0.24; exercise price of \$0.40; dividend yield - 0%; expected volatility (based on historical price data of the Company's common share) - 103.38%; risk-free interest rate - 0.54%; and an expected life - 2 years.

(iii) Management estimated that the Additional Payment Shares of 1,000,000 common shares will be issued and were valued at \$0.24 (based on Deveron close price at July 14, 2016) per share, for a total contingent consideration of \$240,000 which was determined by estimating the probability of future gross revenue during the Earn-out Period. This contingent consideration is included in the purchase price consideration. Refer to note 8(c).

(iv) The promissory notes receivable was due from Deveron.

6. Long-term investments

On April 4, 2013, and May 27, 2013, Deveron acquired 1,000,000 and 2,000,000 common shares respectively, for a total of 3,000,000 common shares of Boreal for \$600,000. The investment represents a 13.6% interest in Boreal.

Boreal is a private company that owns and operates a carbonatite quarry near Sudbury, Ontario.

This investment has been categorized as a long-term investment under the category of available-for-sale and was originally measured at cost because there is no active market for Boreal's shares.

During the year ended December 31, 2015, management had decided to record an impairment of \$599,999 and as a result the long-term investments carrying value decreased to \$1 due to Boreal's inability to advance the project and liquidity issues.

In December 2016, the Company tendered 100% of its shareholdings in Boreal, by exercising their Dissent Rights, to an offer from a third party to acquire 100% of Boreal by Plan of Arrangement. The obligations of the Boreal and the purchaser (together the "Parties") to complete the arrangement are subject to the fulfillment of certain mutual conditions precedent, including: (a) the arrangement shall have been duly approved by the Boreal shareholders; (b) the court shall have approved the arrangement by granting the interim order and final order; (c) the Ministry Consent will have been received; (d) no person has filed or communicated to the Parties that they intend to file an appeal of the final order; (e) no governmental entity shall have enacted, issued, promulgated, enforced or entered any law which is then in effect and has the effect of making the arrangement illegal or otherwise preventing or prohibiting consummation of the arrangement; and (f) the arrangement agreement shall not have been terminated in accordance with its terms. There are additional obligations of the Parties to complete the arrangement. However such additional conditions may be waived in whole or in part by the Parties.

The purchaser will pay a total cash purchase price of \$0.32 per Boreal share after the payment of certain obligations of Boreal. Such amounts are to be paid in three tranches over a 12 month period, which could be extended by the purchaser to a 24 month period as follows:

- \$0.03 per share immediately after December 30, 2016 ("Effective Date") (received in January 2017);
- \$0.12 per share on or before the six-month anniversary of the Effective Date;
- \$0.17 per share on or before the one-year anniversary of the Effective Date, which could be extended to the second anniversary of the Effective Date.

The arrangement agreement calls for total cash consideration to Deveron of \$960,000.

During the year ended December 31, 2016, Deveron recorded a gain on long-term investment of \$90,000 in the consolidated statements of comprehensive loss, being the amount of consideration for the first tranche of \$0.03 per Boreal share.

In January 2017, the Company received \$90,000 from the sale of Boreal.
